

MÄRTENS CLEANER – FOR SILICONE AND PU COATINGS

MÄRTENS CLEANER is a mildly alkaline, ready-to-use multipurpose cleaner that removes stains caused by oil, grease and similar contaminants quickly, safely and thoroughly. It is the perfect agent for cleaning conveyor belts with a PU or silicone coating.

Märtens Cleaner

- > contains no solvents and does not produce vapours or aerosols that are harmful to health.
- > is compatible with the designated materials.
- > is easily separable in accordance with Annex 49 of the German Waste Water Ordinance.

Ingredients

- > < 5% phosphate,
- > < 5 % anionic surfactant,
- > sodium pyrithione,
- > benzisothiazolinone.

Packaging

- > 0.5-l PET bottle with white-red spray trigger;
each box contains 12 bottles

Application

MÄRTENS CLEANER is applied undiluted using the spray nozzle, a cloth or a soft sponge. Leave to act for a short time before rinsing off thoroughly. Check that material is compatible before applying the cleaner. Do not use in combination with other cleaners. Check that the subsurface is compatible before applying. Store product in frost-free place.

Notes

The description and instructions for use on our information sheets are based on practical experience. Since we are unable to check all uses for the cleaner or foresee all circumstances for its use, we cannot guarantee that you will be able to achieve the desired result with the cleaner. We accept no liability for any damage caused by its use. However, this is not the case if it can be proven that any such damage is caused by incorrect composition or properties of the product.

STRIKE!

OUR PRODUCT GROUPS AT A GLANCE:

ROD NETWORK BELTS: Made in music wire, stainless steel or K2390 steel, our rod network belts offer you all the advantages of open grid design and precise belt run.

- > Rod network belts are among the most popular conveyor solutions.
- > Small deflection radii
- > Grid structure for free liquid and air flow
- > Guided by various means

SILICONE MOULDING BELTS: Märtens silicone moulding conveyor belts are available with customised surface structures and features tailor-made for your products.

- > The basis for your product ideas.
- > Temperature resistant up to 180° C
- > Excellent release properties
- > Shaped and structured according to customer specifications

METAL CONVEYOR BELTS: Our metal conveyor belts made from round or flat wire spirals are designed for universal use.

- > These multi-purpose conveyors are particularly suitable for high-temperature applications.
- > With looped or welded belt edges
- > Permeable and temperature resistant
- > Made in stainless steel

TIMING BELTS: Made of thermoplastic or duroplastic polyurethane, they allow for precise conveyance

- > They are particularly suitable in cases where every millimetre counts.
- > Exact conveyance
- > Straight running
- > Diverse designs

PLASTIC CONVEYOR BELTS: We offer conveyor belts with a variety of fabrics, including polyurethane, PVC, silicone, etc.

- > They have been specifically designed for applications where high processing quality is essential.
- > Food processing industry
- > Processing conveyor systems
- > Packaging technology

ACCESSORIES: Our comprehensive range of additional services and accessories covers everything required for safe and reliable system operation.

- > For safe and secure system operation.
- > Drive and deflection components
- > Welding equipment
- > Assembly solutions

MODULAR CONVEYOR BELTS: Made of polyethylene, polypropylene or polyacetal, they offer robust flexibility.

- > With their modular design, they are the most convertible of belts.
- > Easy to extend/shorten
- > For direct contact with foodstuffs

SPECIAL MACHINES: We solve all your problems relating to process technology, based on expertise and years of practical experience.

- > Real-world solutions for practical application.
- > Curved conveyor systems
- > Separating plants
- > Made in Germany

SEPARATING BELTS: The elasticated silicone material allows for flexible width adjustment of the product over separating distance.

- > Advanced solution for special applications.
- > Product separation
- > Product combination
- > With anti-stick surface
